

Start date: October 25

End date: December 25

What is this project?

- SENDIASS have asked CYP to help decorate a Christmas tree to go in the annual Worcester Cathedral Tree Festival.
- Last year they made a tree called 'Positivi-tree' and they used sensory items as decorations, linking to the needs of people with additional needs.

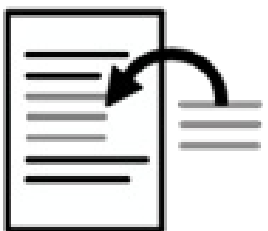

What are we doing and what have we done? (outputs)

- the deadline for the tree to be placed in the Cathedral is 1 December, so the meetings will happen in October and November

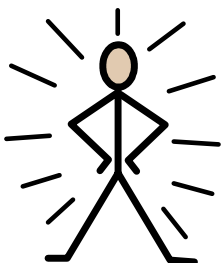

What difference does this make to children and young people? (Outcomes)

- CYP with SEND co-design a tree that represents them
- CYP building confidence in this project with the intention to involve them in more projects moving forward

What difference does this make to policies, services and the workforce (impact)

- greater relationships and connections with CYP to take part in future projects to inform decisions in services
- empowering CYP to use their voice and express their thoughts and views

How will we know we are making a difference?

- finished product of a Christmas tree that has been co-designed by CYP and will be viewed by a high footfall of people
- We are hoping this tree sparks more interest in the forum therefore expanding the reach of CYP we are connected with.
